## **NOTICE OF PROPOSED ACTION**

As provided by Nevada Administrative Code (NAC) in Sections 445A.6758 to 445A.67612, inclusive, the Bureau of Water Pollution Control has made the tentative determination that the Indian Hills General Improvement District Water Quality Improvement Project is eligible for Categorical Exclusion and may be exempted from further substantive environmental review requirements before receiving a loan from the Drinking Water State Revolving Fund (DWSRF) to finance this project.

The Safe Drinking Water Act (SDWA) Amendments of 1996 authorize the DWSRF to assist public water systems to finance the costs of infrastructure needed to achieve or maintain compliance with the SDWA requirements and to protect public health. The U.S. Environmental Protection Agency (USEPA) awards capitalization grants to states, which allows the state to provide low-cost loans and other types of assistance to eligible water systems.
